STANLEY SECURITY SOLUTIONS, INC. INTRODUCES NEW STANLEY BEST BEHAVIORAL HEALTHCARE PRODUCT PORTFOLIO

**Introducing the Commercial Product Release of Stanley Patient Safety Lever,
Stanley Emergency Door Alarm and the Stanley Seclusion Room Lock**

Indianapolis, IN – February 22, 2010 – Stanley Security Solutions, Inc. announces the commercial release of three primary behavioral healthcare products as part of the new BEST Behavioral Healthcare Product Portfolio. This state-of-the-art product offering includes the Stanley Patient Safety Lever (SPSL), the Stanley Emergency Door Alarm (SEDA), and the Stanley Seclusion Room Lock (SSRL).

The SPSL is compliant with the American with Disabilities Act (ADA) and features anti-ligature mortise and cylindrical lever locksets. The SEDA is a door sensor monitoring system that can also be used in conjunction with the SPSL locksets. The SSRL is a single- or multi-point deadlocking device for seclusion and/or time-out rooms.

Stanley Security Solutions worked closely in collaboration with behavioral healthcare professionals to create the new product offerings that provide a breadth of solutions uniquely designed to protect at-risk patients in facilities such as VA medical centers, state psychiatric hospitals, private psychiatric facilities, juvenile detention homes, addiction treatment centers and school time-out rooms.

2-2-2

“The new BEST Behavioral Healthcare Product Portfolio demonstrates our continued commitment -- as a comprehensive security solutions source -- to provide our customers with the necessary services and products to meet their specific application needs,” explains Jaime Torres, Director of Product Marketing for Stanley Security Solutions. “While no product can ever replicate the effectiveness of constant patient monitoring, these products bring significant value to behavioral healthcare facility management.”
