### Stanley Security Solutions Opens New Facility

printer friendly format  email page

Stanley Security Solutions Inc. opened a new facility here for its Stanley Systems Integration Division, which will operate as the group's headquarters. (12/31/2006)

NOBLESVILLE, Ind. — Stanley Security Solutions Inc. opened a new facility here for its Stanley Systems Integration Division, which will operate as the group's headquarters.

The 60,000-square-foot facility will also be where the company designs, assembles and tests integrated solutions before they are delivered to corrections clients.

The facility has a state-of-the-art demo room for new product testing. The building is divided into sections of 20,000 square feet with each section specializing on a certain function, such as sales and engineering, assembly and testing, and warehouse and storage space.

The company hosted an open house for clients in December, giving them a tour of the new facility.
