Lock Suite Spans Mechanical, Electromechanical, Electronic Applications

The 40H mortise lock by **Best Access Systems**, a division of Stanley Security Solutions Inc. of Indianapolis, has undergone a redesign and upgrade. Best has added five new ornamental lever designs to the 40H lock line, plus additional designs that can be special ordered. In fact, the 40H is available with more than 80 trim designs to choose from.

According to Best, the 40H was the first lock suite introduced that operates on a platform-based architecture and includes mechanical, and electronic product applications.
