**STANLEY SARGENT & GREENLEAF LAUNCHES
S&G® TIME LOCK KEYPAD**

Provides the Security, Convenience of a Fully Programmable, Seven-Day Repeating Schedule Time Lock to Users of S&G® Safe Lock Models

INDIANAPOLIS, IN – June 6, 2008 – Stanley Sargent & Greenleaf (S&G), a subsidiary of Stanley Security Solutions, Inc., a leading provider of integrated access control products, today announced the launch of the S&G® Time Lock Keypad, which provides end users the ability to add the extra security of a sophisticated time lock to new or existing S&G® Electronic Safe Locks.

The S&G Time Lock Keypad brings the security and convenience of a fully programmable, seven-day repeating schedule time lock to users of Sargent & Greenleaf® Model 6124, 6125, 6126, 6127, and Z03 Rotarybolt® safe locks. The S&G Time Lock Keypad can conveniently and quickly be added to any of these versatile S&G electronic safe locks in a matter of minutes.

“Stanley Sargent and Greenleaf has long been a leading global provider of innovative time lock solutions,” said Phil Pitt, marketing director, Stanley Sargent & Greenleaf. “The new S&G Time Lock Keypad provides end users with a flexible, convenient way to add time lock functionality to a new or existing Sargent & Greenleaf electronic safe lock.”

S&G Time Lock Keypad features include:

- Secure, encrypted communication between the keypad and lock to prevent bypassing the time lock schedule
- Clear, easy-to-read LCD screen to make programming and operation easier
- Multi-language display: select English, Spanish, German, Italian or Portuguese

- Seven-day repeating time lock schedule, with two fully programmable opening periods per day
- Up to 20 special days may be programmed in advance to keep the safe locked during holidays without altering the normal time lock schedule
- Up to 15 vacation periods may be programmed to override the normal time lock schedule and keep the safe securely locked
- Early Close allows user to instantly time lock the safe and keep it locked until the next regularly scheduled open period
- Automatically adjusts for Daylight Savings Time when user inputs the beginning and end dates
- Keypad and lock are powered by two 9-volt alkaline batteries located in the pull-down compartment in the keypad's base for easy access
- Standard S&G footprint and mounting screw locations for retrofit in place of other S&G keypads and dial rings.
