

6 Series Centerline Strikes

BES-S65U (Standard Profile Universal)

BES-L65U (Low Profile Universal)

BES-S65ULMKM (Standard Profile Universal with Monitoring)

BES-L65ULMKM (Low Profile Universal with Monitoring)

The BEST 6 Series Electric Strikes offer two profile designs to accommodate various latch projections.

Best's "all-in-one" 6 Series electric strike combines several requested key features. Standard features include a multi-voltage single solenoid, selectable lock mode (no tools necessary), horizontal adjustment, and plug-in wire connectors. An optional monitor switch is also available.

The L65 Low Profile version accepts 1/2" or 5/8" latch projection (perfect for narrow stile aluminum frames). The S65 Standard version is ideal when you require 3/4" latch projection.

Not only will installations be faster and easier, distributors and installers can cut their strike inventory significantly, because one strike does it all!

Energy
375mA¹ Field-Selectable
12/24VDC, 12-24VAC

Strength
1500lb Static²
70ft-lb Dynamic

Monitoring
Optional Latch & Keeper
Monitor Models Available

Endurance
500,000 Cycles³

Warranty
Three-year (Limited)

Mode
Field-Selectable
Fail-Secure & Fail-Safe

One strike for all your needs.

Not only will installations be faster and easier, you can cut your strike inventory significantly, because one strike does it all!

Product specifications	
Construction	Stainless steel
Door lock type	Cylindrical and narrowline aluminum
Frame type	Hollow metal, aluminum and wood
Latch projection	Standard profile accommodates 3/4" (19mm) and low-profile accommodates 1/2" (12.7mm) or 5/8" (16mm) latch projections
Connectors	Plug-in wire
Handing	Non-handed
Optional accessories	BES-LEKS601 1" lip extension kit for retrofit applications, black finish (for Standard profile) BES-LEKS602 2" lip extension kit for retrofit applications, black finish (for Standard profile) BES-LEKS603 3" lip extension kit for retrofit applications, black finish (for Standard profile) BES-SMT-01 Strike marketing template kit, aluminum
Finishes	32D Brushed Stainless Steel
Warranty	Three-year limited
Certifications	UL 1034 burglary resistant Listed UL 294 Listed for Access Control Unit Accessory (6th Edition) Certified to ANSI/BHMA standard A156.31, Grade 1, endurance 500,000 cycles ²

Model	Mode	Volts ¹	Duty	Amps
BES-S65U*	Field-selectable Fail Secure or Fail Safe	12VDC	Continuous	.375
BES-L65U*		NA	NA	NA
BES-S65ULMKM*		24VDC	Continuous	.19
BES-L65ULMKM*		12 thru 24 VAC	Intermittent	.280 - .565

Intermittent Duty=energized less than 1 min. with duty ratio 1:5, Continuous Duty=energized 1 min. or more.
*Field selectable voltage

Features

BEST Centerline Strikes

- **Standard profile accommodates:** 3/4" (19mm) and Low-profile accommodates 1/2" (12.7mm) or 5/8" (16mm) latch projections
- **Horizontal adjustment:** 1/4" (6.4mm)
- **Non-handed**
- **Trim plate:** included to cover up irregular frame cutout
- **Patents:** US patent 6,874,830, US patent 7,144,053 and Canadian patent 2,405,642
- **Warranty:** three-year limited
