

Frequently Asked Questions

Exit Trim

Q: What is the Precision 100, 200 & 300 Series?

A: The Precision 100, 200 & 300 Series are heavy-duty grade 1 crossbar style exit devices. The Precision Series provides a traditional aesthetic architectural appeal with proven durability.

Q: Who is the Precision Series customer?

A: The Precision Series is ideal for glass door, existing crossbar, and historical applications. The Precision Series active case aligns with the APEX 2000 mounting holes which serves as a benefit if a customer wants to switch from one device to the other.

Q: What device types is the Precision Series offered in?

A: The Precision Series is available in Rim (100 Series), SVR-Surface Vertical Rod (200 Series) and mortise (300 Series) types.

Q: Are mullions available to order for double door rim applications?

A: The 822 & 811 Series mullions are available to order for these application types.

Q: Are there electrified options available for the Precision Series?

A: There are not currently electrified options available.

Q: What door thickness range can the Precision Series accommodate?

A: The Precision Series is standard to fit 1 3/4" – 2 1/4" thick doors. Thicker door options are available upon request.

Q: What door width range can the Precision Series accommodate?

A: The Precision Series can accommodate 3' – 4' wide doors.

Q: What exit trims are available to order for the Precision Series?

A: Vandal resistant lever, knob and pull trims are available to order for the Precision Series. The vandal resistant lever does not require lever reset.

Q: What lever styles are offered for Precision Series trims??

A: The Precision Series has 4 lever style offerings (i.e., A, B, C & D).

Q: Do you have to specify handing when ordering an Precision Series device?

A: You must specify handing when ordering an Precision Series device. However, the R100 & 200 Series are field reversible.

Q: What keyways are available to order on the Precision Series?

A: Cylinders are not included when you order Precision Series devices. They must be ordered separately. The Precision Series accommodates most manufacturers' rim and mortise cylinders.

Q: What finishes are offered for the Precision Series?

A: The Precision Series is available in 6 finishes: 605, 606, 612, 613, 625 and 630.

Q: What is the lead time for an Precision Series device?

A: The average lead time for an Precision Series device is less than 3 weeks.

Q: What warranty does the Precision Series have?

A: The Precision Series has a 5 year mechanical warranty.
