

# Frequently Asked Questions

## Residential Hinges

Q: What are BEST Residential hinges?

A: Residential hinges are plain bearing light weight hinges that are used on internal lightweight wood doors without door closers.

Q: What hinge types are BEST Residential hinges offered in?

A: Residential hinges are available as full mortise hinges with three different corner options; the square corner (741); 1/4" radius corners (RD741BA); and 5/8" radius corner (RD758BA).

Q: How are BEST Residential Hinge shipped?

A: All Residential Hinges are shipped assembled in full carton quantities only

Q: Are screws included with BEST Residential Hinges?

A: Screws are not included with Residential Hinges and must be ordered separately. Screws are free of charge when ordered with hinges.

Q: What screw is used on the 741, RD741BA, and RD758BA?

A: Residential door hinges typically use 3/4" length wood screws for installation. The 763 3/4"x 9 (Type 17 Fly Cut), which is a 3/4" length wood screw, is available to order with our Residential Hinge series.

Q: Do you have to specify handing when ordering BEST Residential Hinges?

A: Residential hinges are non-handed, so they can be used on both RH and LH doors.

Q: What is the lead time for BEST Residential hinges?

A: The average lead time for in-stock residential hinges is 48 hours from order receipt.

Q: What warranty do Residential series have?

A: BEST Residential hinges have a five year mechanical warranty from date of sale.
